

Mark Weber will be hosting a BBQ for scale RC boaters. This is a backyard BBQ and boat run, so get working on your smallest boats!

Date:

Saturday, March 14
11:00am - 3:00pm

Events:

- 1) Navigation Course: We'll have a mini navigation course and some other challenges setup.
- 2) Lunch: \$10 covers pizza & drinks. Feel free to bring a snack to share.
- 3) Raffle: David Alvarez was given a bunch of scale RC boats. He's been kind enough to redonate them to group members through a raffle. They all need lots of work but should be some interesting projects.
- 4) Trading Table: Have a boat or something to sell, bring it along for sale or trade.

Details:

The pool is 18'x40', so shorter and highly maneuverable boats would be best for this run. This is also a great opportunity to run your submarines. This will be a kid-friendly event but the pool is not heated and will be too cold for swimming.

Location:

As this is at a private residence, please RSVP with David Alvarez 858-272-6340 or Mark Weber 619-392-9530 who will give you the address and directions.
